# Awesome Asthma School Days

Join us for our one-of-a-kind program that teaches kids with asthma — and those who don't — how to deal with this ever-increasing childhood issue. Created for all kids in grades 4-6, topics include:

- How the respiratory system works—and how asthma affects it.
- Things to look for to help yourself or a friend with asthma.
- How to use asthma tools to help yourself or a friend having an asthma attack.
- Positive decision-making to stay healthy.
- The effects of smoking on the body.

Awesome  
Asthma  
School Day is
